

**Ocean Signal Ltd.**

Unit 4 Ocivan Way  
Margate, CT9 4NN  
United Kingdom

## CERTIFICATE OF CONFORMITY

Hereby we, Ocean Signal Ltd., of the above address, certify that the lithium battery module designated LB14E, has been tested in accordance with the United Nations Recommendation on the Transport of Dangerous Goods, Manual of Tests and Criteria (ST/SG/AC.10/11/Rev.7).

The LB14E is designed for use with:

- rescueME EPIRB2 Emergency Position Indicating Radio Beacon
- rescueME EPIRB2 Pro Emergency Position Indicating Radio Beacon
- rescueME EPIRB3 Emergency Position Indicating Radio Beacon
- safeSEA EPIRB3 Pro Emergency Position Indicating Radio Beacon

Testing was performed by Sartech Engineering Ltd., under test report no. 062020-3.

**Test Report Information:**

**Test House:** Sartech Engineering Ltd

**Address:** 13 Trowers Way, Holmethorpe Ind. Estate, Redhill, Surrey, RH1 2LH, UK

**Contact:** Tel: +44 (0) 1737 372670 ; Email: info@sartech.com

**Report No:** 062020-3

**Date:** 8 June 2020

**Title:** UN Transportation Safety Tests on lithium primary batteries Ocean Signal ref: 901S-03417

The battery module successfully completed all tests and each battery has been categorized as containing less than two grams of lithium.

**Battery Information:**

**Name & Makeup:** LB14E Battery module containing two L19 AA cells connected in series. Three batteries are fitted in the product and isolated from each other for transportation.

**Gross Weight (kg):** 0.1

**Net Weight (kg):** 0.1

**Battery Type:** Lithium Metal

**Lithium content or Rating:** 1.96 grams

**UN 38.3 Clause:** 38.3.3(f)

**UN 38.3 Tests Passed:** T1, T2, T3, T4, T5

The battery module may be shipped with equipment as class 9, UN category UN3091, with the proper name "Lithium metal batteries contained in equipment", under the following conditions:

- By road under the ADR regulations, special provision 188.
- By sea under the IMDG regulations, special provision 188.
- By air under the IATA regulations 66<sup>th</sup> edition, packing instruction 970 section II

The battery module may be shipped as a spare battery without equipment as class 9, UN category UN3090, with the proper name "Lithium metal batteries" and packed in accordance with IATA regulations 66<sup>th</sup> edition, packing instruction 968 section IB.

Signed on behalf of Ocean Signal Ltd.,

**Date:** 20 May 2025

Simon Nolan, Chief Technical Officer
